A World Of Difference.™

LIMITED WARRANTY:

ATLAS ROOFING CORPORATION ("ATLAS") warrants to you, the original owner of its shingle products, that this product is free from manufacturing defects, which result in leaks.

WARRANTY PERIOD:

Your ATLAS shingles qualify for a Limited warranty (as listed in the chart below) when properly installed in accordance with the product's application instructions (as provided on the product packaging).

PREMIUM PROTECTION PERIOD:

The limited warranty is the sole and exclusive remedy, and during the warranty period specified in the chart below, the maximum repair or replacement cost to ATLAS shall not exceed during the Premium Protection years, the replacement cost to the owner for the product plus replacement application cost (this limited warranty does not include costs for tear-off, dump fees, deck repairs, flashing, metal work, underlayment and material disposal fees or related work).

PRORATED WARRANTY PERIOD:

During the remaining warranty period (after the Premium Protection period), ATLAS will adjust valid claims (product materially affected by a manufacturing defect), by an amount determined by decreasing monthly the replacement cost of the product in proportion to the unexpired warranty period. To reflect the percent of use you have received from your shingles, the warranty calculation will be made by dividing the number of months that have elapsed since installation by the number of months in the warranty period. In no event shall ATLAS' liability extend to any cost for the tear off of the product or for the replacement installation cost of the new product during the prorated period.

LIMITATIONS OF REMEDIES AND LIABILITY:

This limited warranty is the sole and exclusive remedy provided by ATLAS for shingles containing manufacturing defects. During the PREMIUM PROTECTION PERIOD for warranty claims, to the extent of those shingles that actually manifest defects in material or manufacturing which affect performance during the applicable limited warranty period stated herein, ATLAS will, in its sole discretion, either: (1) pay the reasonable replacement cost of defective shingles; or (2) provide replacement shingles only, or pay the reasonable cost for replacement shingles of a similar design; or (3) pay the reasonable cost of repair of the defective shingles. During the PRORATED PERIOD, ATLAS will, in its sole discretion, either: (1) pay the reasonable replacement cost of the defective shingles, without application labor, prorated, based on the appropriate percentage of unused months left in the warranty period; or (2) pay the reasonable cost for the replacement shingles of a similar design, without application labor, prorated based on the appropriate percentage of unused months left in the warranty period; or (3) pay the reasonable cost of repair of the defective shingles. The decision on which of the stated remedies is provided to an original owner or authorized transferee in each individual case shall be at the sole discretion of ATLAS. If proration applies as stated above, ATLAS will calculate the appropriate percentage as stated herein under (Prorated Warranty Period.) If providing replacement shingles, ATLAS, wherever possible, shall replace shingles with shingles of the same color and design. However since color variances exist between shingles manufactured at different times and since ATLAS may discontinue or modify its shingles, ATLAS reserves the right to replace defective shingles with shingles of similar color and design.

LIMITED WIND WARRANTY:

(covers Shingles only) ATLAS warrants that its shingles will resist damage by wind gusts up to a maximum wind speed as indicated in the accompanying chart for the first five (5) years only, from the date of installation provided that the shingles have been installed in accordance with the printed application instructions on the shingle bundle wrapper, and have had the opportunity to seal down. If during this five (5) year period, damage occurs to the shingles as a result of wind gusts under the specified Wind Speed Limits, ATLAS will furnish at no charge, replacement shingles for the damaged shingles only, but not for replacement labor.

SEALANT FEATURE:

In order to activate the sealant feature, the shingles must be exposed to direct sunlight for a continued period of time for the shingles to seal. Shingles installed in fall or winter and not exposed to adequate surface temperatures, or other conditions, which temporarily or permanently preclude activation of the sealant, may never seal and must be hand sealed at the time of installation. It is not a manufacturing defect if shingles fail to seal under the above circumstances, and ATLAS will not be responsible for repair, replacement, or hand sealing shingles under these circumstances. However, in the event the shingles fail to self-seal after proper installation and climactic exposure, and ATLAS is notified within the first year after installation, ATLAS' sole responsibility shall be to pay a reasonable cost to hand seal the affected shingles.
